Visible Ops Cloud

The Power of Visibility

Secure high performing cloud ***designed for Banks!***

- **Resilient**

Always on, never goes down

- **Scalable**

Grows with your banking business – build servers on the fly

- **Compliant**

Keeps the regulators happy and off your back

- **Secure**

Highly secure data encryption

- **Lower Cost of Ownership**

Subscribe, not buy – reduce the cost of hardware and ongoing maintenance

Visible Ops Cloud

A Cloud Solution your IT Team will love

- Makes it easy for your IT Teams – Enables ability to deploy quicker, easier to manage, reduces overall IT budget, provides higher availability
- Designed with banking compliance in mind – Aligns with regulatory requirements like FFIEC and GLBA
- Reduces the IT Teams' burden – Drives automation, including push button DR

Built-in Cybersecurity and Best Practices

- AES-256bit Encryption at rest and in transit
- SSAE16 audited facilities and processes
- Proven IT processes and controls based on ITIL and Visible Ops
- 99.99% uptime in highly available commercial data centers

What clients say about us...

"Managing servers and all the complexity that goes with them is far from being a core competency for our team. We find IP Services' robust Visible Ops Cloud has everything we need to keep our systems and applications in a flexible virtual environment – it's reliable, high-performing, and secure. It scales on-demand as the bank grows, plus we never have to worry about a server technology refresh again!"

CEO of a West Coast Community Bank
